

Saint-Gobain COHRLastic[®] 3016 Low Temperature Flexibility Silicone Coated Fabric

Category : Polymer , Thermoset , Silicone

Material Notes:

Description: Saint Gobain Performance Plastics CHR standard COHRLastic silicone coated fabrics, available from stock, have silicone rubber dispersion coated on both sides of fiberglass. They are thin and tough, dimensionally stable yet flexible. Their many applications include belting, vacuum blankets, thermal shielding and diaphragms. The 1000 series has superior electrical properties and good abrasion resistance, while the 3000 series has a smoother, more compressible coating for gasketing applications. SGPPL also has extensive special order capabilities. All data based on a 0.007 inch test sample. Information provided by Saint Gobain Performance Products.
