

## Saint-Gobain Tygon® Furon® 400 High-Purity PFA Tubing

Category : Polymer , Thermoplastic , Fluoropolymer , PFA

### Material Notes:

Furon® 400 Series Tubing is specifically designed to be used with the Furon line of FlareGrip®, FlareGrip® II, FlareGrip®, Flare Fittings, Fast Flare®, cold forming tools and GrabSeal®, Tube Compression Fittings. The 400 Series tubing features a superior smooth surface inner bore, which provides excellent non-wettability, batch-to-batch clean-out and purging. Manufactured from FDA-approved high-purity PFA, this tubing is ideal for use in the Semiconductor, Biotech, Pharmaceutical and Chemical process industries. It should be specified when the reliability and dependability of an application requires the ultimate in purity and chemical resistance. Features and Benefits Non-contaminating laser scribing for positive identification of size, material and 100% lot traceability Heat stabilized during extrusion for broadest service temperature range Tube ends capped to prevent I.D. contamination Furon 400 Series Tubing is available on white plastic reels or in double bagged coils Information provided by Saint Gobain Performance Products.
