

## Saint-Gobain Tygon<sup>®</sup> LP 1200 Small Engine Fuel Transfer Tubing

Category : Polymer , Thermoplastic

### Material Notes:

A low-permeation fuel tubing, the patent-pending Tygon<sup>®</sup> LP-1200 provides multiple solutions and benefits to some of the key challenges facing both outdoor power equipment OEMs and maintenance dealers such as easier assembly, ethanol compatibility and quicker diagnosis of fuel problems during service. Applications Handheld lawn and garden tools: chainsaws, brush cutters, trimmers, blowers Fuel transfer hoses: lawn mowers, snow blowers, other ground supported equipment Features and Benefits Transparent Quick diagnosis of fuel flow or leak issues High purity fluoropolymer inner liner Eliminates risk of rubber distractible contamination in carburetors Superior chemical resistance and compatible with 100% ethanol fuel transfer Worry free operation Excellent fitting retention 100% seal and optimum safety Superior flexibility Easy assembly, routing and optimized fuel pick up Excellent elasticity Prevents "necking" from over-stretching during installation Submersible Applicable with most fuel applications UV resistant Durable longer service life EPA and CARB approved (Carb # Q-14-03) Meets low permeation standards of 15g/m<sup>2</sup>/day Patent pending Proprietary design to differentiate Choices of size and color Custom to OEM needs Information provided by Saint Gobain Performance Products.
