

Schmolz + Bickenbach UGICHROM 4305 Austenitic Chrome Plated Bar

Category : Metal , Ferrous Metal , Austenitic

Material Notes:

Description: Ugichrom combines the high efficiency of micro-fissuring chromium plating with the technology of Ugitech's most advanced grades. Advantages: Zero defects guarantee; Low friction coefficient; High resistance to wear; Improved corrosion resistance; Micro-fissured chromium (1000 micro-fissures / cm²) guarantees a definitive level of resistance to extreme conditions in severe environments; Improved machinability (up to +20% of productivity); Superior mechanical properties; and High level of geometrical and dimensional precision. Information provided by Schmolz + Bickenbach
