

Shandong Rike Chemical RIKEâ„¢ RK-730 MBS Impact Modifier for PVC Transparent Product

Category : Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Outline of MBS Impact ModifierRIKEâ„¢ MBS impact modifier for PVC transparent product developed by our R&D Center is a ternary copolymerized by Methyl Methacrylate, Butadiene and Styrene. It is endowed with excellent quality due to optimum combination of mechanical property and optical property. Its advantages are as follows: high clarity, high impact strength and lower crease whitening, which is mainly used to improve the performance of PVC transparent products.Applications:Clear sheet and film with high impact strength needs.Product Characteristics (rating 1-10; 1=bad, 10=good)Impact Strength = 7Light Transmittance = 6Haze = 6Crease Whitening = 5Information Provided by Shandong Rike Chemical Co., Ltd.
