

## Shinil Chemical SHINSTRA PC/ABS SCV2030 Structural Polymer Housing

Category : Polymer , Thermoplastic , ABS Polymer , Polycarbonate (PC)

### Material Notes:

SHINSTRA is the product line of structural polymer compound which exhibits excellent physical, mechanical, and thermal properties. Shinil uses the state-of-the-art dispersion and blending technology with a variety of polymers to produce high performance SHINSTRA compound. SHINSTRA compounds are designed by alloying engineering thermoplastics or mineral reinforcing or fiber reinforcing or hybrid filler reinforcing. SHINSTRA are tailored to control the mechanical and physical properties according to its application or customer demand. SHINSTRA are often used to replace metal parts. Feature and Benefits Excellent impact resistance High scratch resistance Outstanding abrasion resistance Excellent chemical resistance Excellent mechanical properties Improved thermal properties Easy processing Lighter weight Cost effective Information Provided by Shinil Chemical Industry Co., Ltd.

Physical Properties	Metric	English	Comments
Specific Gravity	1.42 g/cc	1.42 g/cc	

Mechanical Properties	Metric	English	Comments
Tensile Strength, Ultimate	97.1 MPa	14100 psi	
Elongation at Break	4.0 %	4.0 %	
Flexural Strength	142.2 MPa	20630 psi	
Flexural Modulus	6.96 GPa	1010 ksi	
Izod Impact, Notched	0.883 J/cm	1.65 ft-lb/in	

Thermal Properties	Metric	English	Comments
Deflection Temperature at 1.8 MPa (264 psi)	135 Â°C	275 Â°F	

Processing Properties	Metric	English	Comments
Processing Temperature	260 Â°C	500 Â°F
