

Silberline Dedusted Flake Series DF-3500 Aluminum Flake

Category : Other Engineering Material , Additive/Filler for Polymer

Material Notes:

DF-3500 Dedusted Aluminum Flake is manufactured by incorporating a small amount of Teflon with an uncoated aluminum pigment, and then, through further processing, is provided in a dry, non-dusting form. DF-3500 is a medium sized, non-leafing, cornflake type aluminum pigment. Applications: Powder Coatings
