

## Silberline EX 2871 Stabilized UV

Category : Other Engineering Material , Additive/Filler for Polymer

### Material Notes:

EX 2871 provides a non-leafing, fine particle size grade of aluminum flake pigment for use in one pack UV cured coatings. The aluminum flake is stabilized to increase the shelf life of the product in such systems. A high concentration of metal flake in a non-reactive C13-15 fatty alcohol carrier ensures both maximum formulating flexibility and good system compatibility. Applications: Printing Inks

Physical Properties	Metric	English	Comments
Specific Gravity	1.71 g/cc	1.71 g/cc	
Volatiles	1.5 %	1.5 %	
Particle Size	13 Åµm	13 Åµm	Before Conversion

Descriptive Properties	Value	Comments
% Carrier	25	
Carrier	Aliphatic Alcohol	
Category	Non-leafing
