

## Sinotek Materials HG Board Heat Insulation Material Ceramic Fiber Board, White

Category : Ceramic , Oxide , Aluminum Oxide , Silicon Oxide

### Material Notes:

Ceramic Fiber Board is used for the following applications: sealing for furnace doors, thermal and electric insulation for heaters, glass and ceramics, high temperature and thermal insulation, and inner liners of high temperature applications such as electric furnaces. This product has low thermal conductivity, thermal shock stability, heat function stability, acoustical insulation, and well good chemical resistance properties. Information provided by Sinotek
