

## SolVin 068SA Polyvinyl Chloride Aqueous Dispersion

Category : Polymer , Thermoplastic , Vinyl (PVC) , PVC, Powder

### Material Notes:

Water-based dispersion of polyvinyl chloride, made by emulsion polymerization. The water-based dispersion (latex) is basic and it is formed of very fine PVC particles leading to high dispersability of the resin. Uses: Preparation of various end-products, particularly water-based inks, lacquers or adhesives. Information provided by SolVin.
