

## Solvay AQUARITE<sup>®</sup> ESL Surfactant

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

### Material Notes:

Identification: PHOSPHONATE END CAPPED SULPHONATED COPOLYMER Available in: Asia Pacific, Europe, Latin America and North America. Applications: AQUARITE<sup>®</sup> ESL is a patented, high performance, broad-spectrum scale inhibitor designed to be effective under the most severe of conditions whilst offering performance benefits across a wide range of oilfield applications. AQUARITE<sup>®</sup> ESL offers excellent thermal stability and brine tolerance, extended squeeze lifetimes and smooth return to production profiles and is the product of choice in environmentally sensitive regions. Information provided by Rhodia, Rhodia has been acquired by Solvay.
