

Solvay MACKAM® OSF-60 Surfactant

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Product Description: Mackam® OSF-60 is an excellent lubricant, which also has detergency. Its solubility in non-polar solvents makes it useful in anhydrous cleaners. Unlike other amphoteric surfactants, Mackam® OSF-60 has no sodium chloride. It is suggested for systems where chloride would be detrimental to performance or would cause corrosion problems. Mackam® OSF-60 is stable over a broad pH range and is the surfactant of choice for water-free systems. INCI Name: Oleoamphopropionic Acid (and) Hexylene Glycol CAS: 73772 67892-37-9 (and) 107-41-5 EINECS: 267-569-7 (and) 203-489-0 Uses: Solvent Cleaners, Textile Scours and Wax Strippers Information provided by Rhodia, Rhodia has been acquired by Solvay.
