

Solvay MACKANATEÂ® OPV Surfactant

Category : Fluid

Material Notes:

Product Description: MackanateÂ® OPV is a vegetable derived sulfosuccinate half ester of oleamide MIPA. As such, it is a very mild surfactant to both eye and skin. When blended with high foaming anionic surfactants, like alpha olefin sulfonates, lauryl and laureth sulfates, MackanateÂ® OPV will reduce irritation without significantly reducing foam. MackanateÂ® OPV also responds readily to viscosity builders, such as, amides, betaines and salts. High viscosity products can be easily formulated. This grade is preserved with methylparaben, propylparaben and has no formaldehyde donors. INCI Name: Disodium Oleamido MIPA Sulfosuccinate CAS: 43154-85-4 EINECS: 256-120-0 Infrared Spectrum: Matches Spectrum Uses: Mild Shampoos, Baby Shampoos, Bubble Baths, Bath Products and Body Cleansers Information provided by Rhodia, Rhodia has been acquired by Solvay.

Physical Properties	Metric	English	Comments
Density	1.11 g/cc	0.0401 lb/inÂ³	
Solids Content	36.5 - 39.5 %	36.5 - 39.5 %	Moisture Balance
pH	5.0 - 7.0	5.0 - 7.0	5% Solution
Viscosity	<= 2000 cP	<= 2000 cP	#3 SP @ 12 rpm

Optical Properties	Metric	English	Comments
Gardner Color Number	<= 6.0	<= 6.0	

Processing Properties	Metric	English	Comments
Shelf Life	24.0 Month	24.0 Month	

Descriptive Properties	Value	Comments
Appearance	Clear Liquid	
Composition	Pathogenic Organisms	Absent
	Total Plate Count	<100 cfu/g
Preservative	Methyl Paraben	0.001
	Propyl Paraben	0.0002
