

Solvay Specialty Polymers Catalyst CT/4 BLK Polyolefin

Category : Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Catalyst CT/4 BLK is a polyolefin based masterbatch to be used with cable silane crosslinkable compounds in the amount suggested for each material. Developed for Polidan® , Polidienne® and Cogegum® GFR series compounds, it contains a special carbon black grade to impart fair UV/VIS resistance. Catalyst CT/4 BLK can be used in a wide application range due to its catalytic activity and the anti-ageing effect given to the final product. It contains also a metal deactivator that allows its use also in direct contact with untinned copper. Features: Copper Contact Stabilized; Halogen Free. Uses: Wire & Cable Applications. Information provided by Solvay Specialty Polymers.
