

## Struktol TPW 012 Processing Additive

Category : Other Engineering Material , Additive/Filler for Polymer , Polymer

### Material Notes:

An optimized blend of special waxes and oleo chemicals. STRUKTOLÂ® TPW 012 is a formulated blend of lubricants designed to provide optimum processing, surface and physical property characteristics of rigid PVC compounds. STRUKTOLÂ® TPW 012 is recommended for wood-filled PVC and has been shown to provide significant processing and output rate benefits when compared to traditional lubricant formulations.

Physical Properties	Metric	English	Comments
Specific Gravity	0.980 g/cc	0.980 g/cc	
Additive Loading	2.0 - 8.0 %	2.0 - 8.0 %	parts depending on formulation and processing needs.

Thermal Properties	Metric	English	Comments
Dropping Point	122 - 128 Â°C	252 - 262 Â°F	

Descriptive Properties	Value	Comments
Appearance	Beige to light tan pastilles
