

## Suqian Unitechem Antioxidant B215

Category : Other Engineering Material , Additive/Filler for Polymer

### Material Notes:

CAS NO.: 6683-19-8 31570-04-4 Properties: Antioxidant B215 is a kind of compound components, including antioxidant 1010 and 168.

Soluble in benzene, hexane, ethyl acetate, insoluble in water. Uses: Good synergistic of antioxidant 1010 and 168, can retard heated degradation and oxidative degradation of polymeric substances during processing and in end applications. It can be widely used for PE, PP, PC, ABS resin and other petro-products. The amount to be used may be 0.1-0.8%. Information Provided by Suqian Unitechem Co., Ltd.
