

Zeon Chemicals Hydrin® H-75 Polyepichlorohydrin Elastomer

Category : Polymer , Thermoset , Rubber or Thermoset Elastomer (TSE)

Material Notes:

Hydrin H-75 is a epichlorohydrin homopolymer with high oil, fuel and solvent resistance. Compounds using Hydrin H-75 typically exhibit good heat resistance, excellent ozone resistance along with outstanding gas impermeability. Sufficient antioxidant is added during the manufacturing process for normal aging conditions. An epichlorohydrin homopolymer with high oil, fuel and solvent resistance. This substance typically exhibits good heat resistance, excellent ozone resistance along with outstanding gas impermeability.
